SAN ANTONIO--(BUSINESS WIRE)--Investment broker Sarah Teel has formed MSL Investments with headquarters in San Antonio, Texas. The company, which began operations in May 2007, is focused on providing a broad range of commercial real estate brokerage services, including matching acquisitions and disposition opportunities to client goals, performing due diligence and asset managing the property to ensure its performance expectations.

Teel most recently served as partner with United Commercial Realty (UCR). In 2002, she launched United Commercial Realty Management (UCRM) and within the first year of operations produced a profit. Under her leadership, UCRM's portfolio grew from 120,000 square feet in 2001 to more than 1.7 million square feet in 2004 – expanding the portfolio ten times over in less than three years. As a principal in the San Antonio office of UCR, Teel moved on to head up the investment sales division and was recognized as a top producer in 2006.

MSL Investments was established with Teel's current portfolio of clients and represents a full range of commercial real estate investors and developers.

"My goal," says Teel, "is to provide a broad scope of services and high level of responsiveness for my clients – always with an eye towards managing the investment to meet client goals."

One of MSL's newest clients is Cary, North Carolina-based Oaks Development Group. Oaks is introducing its successful ownership hybrid model for Class A professional/medical properties to the Texas market and has selected MSL Investments to exclusively represent the company in its statewide rollout.

"We retained Sarah on the strength of her reputation and proven track record," says Max Oaks, president and founder of Oaks.
